SABMiller announces a Rand 1.6 billion bond issue and debt refinancing

SABMiller plc, the world's second largest brewer by volume, announces that its wholly owned subsidiary, SABSA Holdings (Pty) Ltd, has successfully priced a 5-year Rand 1.6 billion note issue in South Africa. The notes, issued under a Rand 4 billion Domestic Medium Term Note Programme, are guaranteed by SABMiller plc and will be listed on BESA, the South African Bond Exchange. Moody's Investors Service and Standard & Poor's Ratings Services have assigned the programme long-term ratings for South Africa of 'Aa3a' and 'zaAA' respectively.

The notes will be issued in one tranche of Rand 1.6 billion of 5-year notes with a coupon of 9.935%.

In due course, short term commercial paper will be issued under the Rand 4 billion Domestic Medium Term Note Programme. Moody's Investors Service and Standard & Poor's Ratings Services have assigned the programme short-term ratings for South Africa of 'P-1za' and 'zaA-1' respectively.

Malcolm Wyman, Chief Financial Officer, SABMiller plc, said "We are very pleased by the reception of bond investors to the return of the SABMiller group to the capital markets in South Africa. Investors' recognition of the strength of SABMiller's business mix and cash flow generation has enabled us to undertake this important refinancing at competitive pricing levels which have been improved further by hedging activities undertaken ahead of the issuance."

SABMiller plc Interim Management Statement

At the Annual General Meeting of SABMiller plc (SABMiller) today, Graham Mackay, chief executive of SABMiller, commented on the group's performance for the three months ended 30 June 2007. The calculation of the organic growth rates included below excludes volumes for acquired businesses for the first 12 months after an acquisition.

Mr Mackay said: "The group has made a strong start to the year, recording 17% growth in lager volumes, with organic growth of 13%, and achieved a good financial performance in the first quarter, in which revenue growth was partially offset by higher input costs and increased investment across the business.

"In Latin America, lager volumes for the quarter rose by 12%. Strong volume performances in Colombia and Peru reflect continuing favourable economic conditions and the ongoing impact of our initiatives to rejuvenate the beer category. These initiatives include the introduction of new containers and brands and increased investment in marketing as well as in merchandising. In Colombia, our biggest brand, Aguila, has been relaunched successfully in the quarter and we are restructuring our route to market. In Peru, volumes of our leading brand, Cristal, remain strong following the recent packaging changes and have led to continuing share gains.

"Our Europe business once again performed strongly, with volume growth of 17% and share gains in most markets. April and May sales were particularly strong, assisted by warm weather across the region, although June experienced wetter weather resulting in lower volume growth in the month. Poland achieved growth of 20% across the portfolio, notwithstanding challenging comparatives which included the benefits of the soccer World Cup. Volumes in Russia were also up by 20% led by Zolotaya Bochka, MGD and Redds, although this strong growth is leading to some capacity constraints. Romania grew by 52%, driven by our Timisoreana brand and the success of its new PET packaging, and benefiting from increased capacity introduced in the first half of the prior year. Czech Republic achieved domestic growth in volumes of 10%, led by our Gambrinus and Kozel brands. In Italy, branded domestic volume increased by 3%.

"In North America, Miller's US domestic sales to retailers (STRs) increased by 4.6% compared to the prior year, but were down 0.7% on an organic basis (excluding Sparks and Steel Reserve, acquired in August 2006) as Miller drove higher pricing across its portfolio. Miller Lite brand volumes were level with the prior year and STRs of the worthmore portfolio, including Sparks, were up 63%. As Miller continues to migrate its brand portfolio to higher growth worthmore brands, the Peroni, Leinenkugel's and Sparks brands all delivered double digit volume growth. Early in its national rollout, Miller Chill delivered strong volume growth well ahead of target.

"The Africa & Asia business achieved organic growth of 23% in lager volumes, with China continuing to record strong growth. In Africa (excluding Zimbabwe), lager volumes grew by 5% on an organic basis, with a good start to the year in Tanzania and Mozambique and growth in Botswana after two difficult years.

"In South Africa, our lager volumes were up 4%. This performance reflects growth across all of our brands, with good growth in the mainstream segment and the successful launch of our premium brand, Hanza Marzen Gold, in early May. Soft drink volumes grew by 13% reflecting the favourable weather conditions prevailing in April and May, and ongoing trade restocking following some carbon

dioxide shortages at the end of the prior year.

"Our South African holding company has recently raised R1,600 million (approximately US\$230 million) in 5-year notes. The notes, issued under a R4,000 million Domestic Medium Term Note Programme, are guaranteed by SABMiller plc and are listed on BESA, the South African Bond Exchange. The net proceeds of the bond issue have been used to repay part of existing loan facilities that were utilised by The South African Breweries Ltd"

SABMiller - Senior Management Changes

SABMiller plc announced today that Andre Parker, Managing Director of SABMiller Africa and Asia, and Norman Adami, President and CEO SABMiller Americas, will both be retiring from the company in the coming months.

SABMiller Africa and Asia

Andre Parker will be retiring at the end of September 2007 after 32 years of service. Under Andre's leadership the Africa and Asia region has grown substantially with EBITA, turnover and volumes up almost four-fold over a period of eight years. In fiscal 07 the region accounted for some 30% of group lager volumes and some 14% of sales revenue.

In recognition of the current scale and future growth potential of the group's Africa and Asia interests, from 1 October 2007 the region will be split into two management units.

Ari Mervis is appointed Managing Director SABMiller Asia and Mark Bowman will take up the role of Managing Director SABMiller Africa. Reporting directly to Graham Mackay, SABMiller Chief Executive, Ari and Mark will join the SABMiller plc Executive Committee (Excom), effective 1 October 2007.

Currently Managing Director Australia, Ari Mervis was responsible for building SABMiller's successful Russian business and has most recently established the company's presence in Australia. Ari will head up a relatively small Asia hub office, located in Hong Kong, which will support SABMiller's partnerships in China, Australia and Vietnam and the wholly owned Indian business, and continue to grow SABMiller's interests in the region.

Mark Bowman, currently Managing Director Kompania Piwowarska in Poland, has significant experience of both the beer and soft drinks businesses, having previously been Managing Director of the company's South African bottling operation ABI. The Africa hub office will remain in Johannesburg, and will focus on further developing SABMiller's beer and soft drinks operations on the African continent (outside of South Africa).

Commenting on the management changes, Graham Mackay, Chief Executive, said:

"Andre Parker has made an outstanding contribution to SABMiller, establishing a leadership position for the company in both China and India while maintaining strong growth in the Africa region. I wish Andre and his wife Linda a long and happy retirement.

"I am confident that Ari and Mark, both experienced SABMiller managers, will continue to build our businesses in Asia and Africa and deliver further value enhancing growth."

SABMiller Americas

SABMiller plc also announced today that Norman Adami, President and CEO SABMiller Americas, will be retiring from the company.

For some time Norman has expressed a desire to retire and return to South Africa, at an appropriate juncture, due to compelling family circumstances. With the transition of the Miller management team already fully completed and the integration of the Group's Latin American businesses also well advanced, Norman will retire from full service on 30 November 2007.

Norman has served the business for 25 years and has been a member of the SABMiller Executive Committee for 13 years. He successfully managed SAB Ltd as Managing Director for 9 years and more recently led the Miller Brewing Company as President and CEO from 2003 to 2006, completing the business turnaround and

building a sustainable platform for it to compete in the US marketplace. In addition over the last 12 months Norman has overseen the successful integration of Grupo Empresarial Bavaria into the SABMiller group.

Norman was able to make a unique contribution to SABMiller as President and CEO SABMiller Americas due to his experience and knowledge of the US and global beer markets. Norman will not be replaced in this position.

Tom Long, President and CEO of the Miller Brewing Company and Barry Smith, President of SABMiller Latin America, upon Norman's retirement, will report directly to Graham Mackay, SABMiller Chief Executive, and will continue to serve as members of the SABMiller plc Excom.

Commenting on the announcement, Graham Mackay, Chief Executive, said:

"Norman has made an enduring contribution to the SABMiller Group and we will greatly miss his wisdom, passion and commitment. One of Norman's legacies is the strong management team that he has built up in the Americas.

"I respect Norman's decision to move back to South Africa to support his family and we wish them all success and happiness in this new phase of their lives."

SABMiller joint venture makes China acquisitions in Liaoning, Anhui and Hunan Provinces

China Resources Snow Breweries Limited ("CR Snow"), SABMiller's joint venture in China with China Resources Enterprise, Limited (or "CRE"), has announced that it has agreed to acquire four breweries in separate transactions. Two breweries are in Liaoning province, one brewery is in Anhui and one is in Hunan province. The total investment cost for the four acquisitions is US\$79m, which includes a cash consideration of US\$57.0m.

CR Snow has agreed to acquire an 80% equity interest in Liaoning Yalujiang Brewery Company Limited ("Yalujiang Brewery") and the brewing assets of Huludao Juhua Brewery Company Limited ("Juhua Brewery") through a joint venture in which it will own an 85% equity interest. It is also acquiring the brewing assets of Anhui Wanpi Brewery Company Limited ("Wanpi Brewery") and a 100% equity interest in Hunan Xinghua Brewery Company Limited ("Xinghua Brewery"). All four breweries will benefit from enhanced investment in their facilities to bring them up to CR Snow's production standards.

Liaoning province is located in the north-east of China with a population of about 42 million inhabitants. At present, CR Snow has eight breweries in Liaoning province and is the leading brewer there. It has total production capacity of over 11 million hectolitres but the existing plants are close to full capacity. The addition of Yalujiang Brewery at Dandong in south-eastern Liaoning and Juhua Brewery in western Liaoning will provide immediate additional production capacity of 2.7 million hectolitres. The breweries will also enhance distribution efficiency, extending CR Snow's reach over this extensive province.

Located in the north-eastern county, Wuhe in Anhui province, Wanpi Brewery will boost CR Snow's production capacity there to approximately 14 million hectoliters. It will also generate synergies with CR Snow's existing breweries at Bengbu and Chuzhou, cementing a strong network in the northern region of Anhui. Currently, CR Snow is the largest brewer in the province with seven breweries.

Xinghua Brewery is situated at Yueyang in the north-eastern region of Hunan province and alongside the famous Dongting Lake. At present, CR Snow does not have any plant in Hunan province though a small quantity of SNOW was sold locally. The current annual production capacity of the brewery is 1.2 million hectolitres and it has the dominant market share in Yueyang.

Mr. Andre Parker, Managing Director of SABMiller Africa & Asia, said, "The acquisitions reflect our commitment to accelerate the national presence of "SNOW". Upon conclusion, they will add a total of about 5.0 million hectolitres to CR Snow's current production capacity of close to 90 million hectolitres. The average attributable investment cost of around US\$18 per hectolitre, is very reasonable; reflecting our ability to expand profitably at low cost."

Mr. Mark Chen, Managing Director of China Resources Enterprise, Limited said, "The acquisitions in Liaoning and Anhui will generate synergies with our existing breweries, refine the distribution network and strengthen our leading position in the provinces. In Hunan, the acquisition will provide a solid platform for our national brand "SNOW" to expand and concurrently complement our

existing operation in Wuhan given its close proximity."
